

JOB DESCRIPTION

Job Title	PSV Body Repair Technician
Location	Birmingham
Reporting to	Engineering Manager
Hours	45 hours per week
Salary	Around £36,000 per annum subject to knowledge, skills and experience

Job Purpose

Working as a fully skilled Body Repair Technician ensuring that our buses look their very best on the road for our customers; and making internal modifications to buses.

Background Information

We are a rapidly expanding bus provider called The Green Bus. We operate 30 double deckers including Dennis Tridents and Volvo B7TLs. Our bus bodies are ALX400s, Plaxton Presidents and (for now) Northern Counties Palatines. We inspect our vehicles every 28 days and we set high standards for their maintenance.

As the leading brand in our sector we specialise in delivering exceptional service and are looking for a suitably experienced bodywork expert to join our team.

Main Duties and Responsibilities

- Vehicle body maintenance
- Preparing vehicles for MOT (body)
- Rectification of daily body related defects
- Accident repairs
- Ensuring all administration including defect sheets are completed
- Ensuring that the workshop is clean
- Working as a team player
- Working safely and adhering to the Health and Safety at Work Act
- Carrying out any duties directed by your manager
- Centre door conversions and seatbelt conversions

Knowledge, Qualifications, Skills and Experience

Knowledge/Qualifications

Essential: Fully qualified bodywork professional
Desirable: PCV licence

Skills

- Adhering to DVSA guidelines and regulations
- Accurate diagnosis and efficient repair of bodywork defects
- High standard of finished product

Experience

- Minimum three years working on bus bodywork
